***60th Anniversary of the  
Institute - The Past and the  
Future are Here***

Lazar Vujaklija (1914-1996)

**Hotel Metropol, Belgrade**

**19-21. April 2023.**

# First announcement

Dear colleagues and friends of the Institute,

In 2023, we will mark an important milestone – 60 years of the Institute of Mental Health in Belgrade. The Institute was formed on the 14<sup>th</sup> of April 1963, as the Center of Mental Health and since 1978 it has been renamed into Institute. Today, we are presenting an institution of 248 employees, working in the areas of child, adolescent, and adult psychiatry, epileptology, as well as medicinal genetics, pharmaceutical activity, and laboratory diagnostics. The Institute also cooperates with multiple Faculties of the University of Belgrade and the Singidunum University, providing practical learning opportunities for their students.

We will devote various programs to the anniversary of the Institute of Mental Health in the period September 2022 - June 2023. Regular notices will be posted on the page <http://www.imh.org.rs>

On this occasion, we especially announce the Tenth Forum of the Institute: **“60th years of the Institute - the past and the future are here”**. The Forum will unite history, tradition, and experiences with contemporary perspectives and visions for the future of clinical and scientific approaches to psychiatry and psychotherapy.

Save the dates 19-21. April 2023, to celebrate the jubilee together!
